- **Frameworks & Libraries:** Angular, Bootstrap
- **Version Control & Project Management:** GitHub, JiraSEO
- SEO Optimization & Web Performance

## PROFILE

I am a passionate and detail-oriented Front-End Developer with 6 months of experience at DGSoft IT. I specialize in HTML, CSS, JavaScript, TypeScript, and Angular, with a solid understanding of UI/UX principles and modern web technologies. I have experience working with version control tools like GitHub and Jira and have a good knowledge of SEO optimization for enhancing web performance. I enjoy building responsive, user-friendly, and visually appealing web applications and am eager to grow in the field of front-end development while contributing to innovative projects.

## WORK EXPERIENCE

### 2024-2025(6 months)

*Front-End Development*

- Developed and maintained responsive web applications using HTML, CSS, JavaScript, and Angular.
- Designed and optimized UI components for better user experience and accessibility.
- Worked on SEO strategies to improve website ranking and performance.
- Collaborated with back-end developers to integrate APIs and improve functionality.
- Used GitHub for version control and managed tasks using Jira.

### Projects

- Personal Portfolio
- Online Admission System
- Static Website
